August 2020 Committee Reports

Common Grounds: D. Wilkerson

GFI's and breakers replaced at north side of West entrance. It may have been due to a lightning strike. Noticed the lights were not working and the panels were open. In speaking with the resident that lives near the entrance, they did not see anyone near the panels and shared there had been a lightning strike due to the inclement weather.

Grants: S. Wilkerson

2020 Mini-Grant: Operation Community Glow project is complete. Final report and receipts submitted to Hillsborough county for reimbursement by deadline of July 31st. SHRA should receive reimbursement in approximately 3 – 4 weeks according to communication with county neighborhood liaison. Check out the west side. Lappers Landscape Lighting completed the project. A big thank you to our volunteers for assisting. Dee Wilkerson, ET Nortje, Frank Weiri and Lee Alexander.

2019 Tree Grant: Annual progress report was submitted on July 17th for West common area project.

Upcoming Grants

Tree Grant: The Tree Grant aims to encourage neighborhood residents to plant trees in community-maintained areas, as well as road rights-of-way within or adjacent to their neighborhoods. Trees provide numerous environmental benefits such as oxygen production, air pollution control, noise abatement, rainfall dispersion to control flooding, and the aesthetic and wildlife enhancement.

SRHA received prior grant award for dam common area in the past along with the Low Volume Irrigation Grant, however due to current engineer feedback, the Dam Corporation made the decision to not allow the new plantings due to concerns about the integrity of the dam area. In order not to lose the funds, Hillsborough County allowed me to resubmit information for another common area in the community which resulted in plantings on the West side.

Grant submission is due September 30th. We plan to submit proposal Grant for East side entrance.
